A SHLAND (Or.) May 20.—The President today completed his tour of California, and entered upon the last stages of his long journey, which is to end at Washington. His trip today has been through the mountainous region around Mt. Shasta, where the towns are few and far between, and conesquently he has been called upon to do but little speech making. Where his train did stop, however, he was me by large and enthusiastic crowds.

Gov. Pardee of California, who has been with the President almost continuously since he entered the State, bade him good-by at Hornbrook, and in the short address the President delivered at that place he said he was very sorry to part with the Governor. The President made his longest speech of the day at Dunsmuir, Cal.

"It think that I cam say." he said, "that I came to California a pretty sood American, and I go away a better one. SISSON, May 20.—The President was enthusiastically received during his 5-minute stay in Sisson this afternoon. His special train arrived here at 1:15 o'clock after a trip through the beautiful scenery of Northern California. Over five hundred people congregated at the station to see the President, who greatly pleased them all with one of his characteristic short speeches.

The President was given a hearty cheer as the train pulled out of the station. The weather was fine, but clouds rested upon the top of Mount Shasta and greatly marred the President's view of the grand old moun-

of California's resources. He said he was convinced that San Francisco, "on that wonderful harbor," would do its full share in dominating the commerce of the nation. The speaker complimented California's men and women, and brough forth cheers. He said the physical advantages of a country were useless without good men. Other nations had falled, because the type of citizenship was different. The President dwelt at length on the qualities of good citizenship.

Among the gifts bestowed to those on the Presidential train were specimens of copper, Shasta's greatest product. The President looked clear and bright after his night's trip through the Sacramento Valley. At the conclusion of his remarks, the train started north on its trip through the picturesque Sacramento River Cafon.

charges filed by Seymour Tuiltoch against Heath, and inviting him to reply.

Payne today said that this was the first communication addressed by him to Heath. Yesterday and the preceding day he believed that Heath should not be brought into the investigation. He said Heath's official acts should not be subject to perpetual review and revision; there should be a limit where these acts would pass into official routins and be regarded as closed.

This action today therefore came as a complete surprise. Mr. Payne's ahange of front has created a general impression that he has again heard from the President, and has been instructed to take up the Heath end of the scandal.

It is also considered certain that Payne has been given some additional context from the President collaborate from the president collaborates.

BUTTE (Mont.) May 30.—Three feet of snow is reported from Coutts. Mont.. near the international boundary line, today, and the thermometer is ranging from 4 to 4 deg. below zero. Traffic on the Great Northern is seriously interfered with, and the trains are operated only under the greatest difficulty. The cuts of the road are filled high with drifted snow.

Conservative estimates tenight place the loss of stock at about 33,000,000, and the number of head of glock lost is figured at about ninety throusand. This loss will be swelled by the ruin of the fruit crop throughout northern Montana, which, it is understood, is a total loss. The storm was followed by frost of the most damaging kind, and It is also considered certain that Payne has been given some additional orders from the President relative to the greater degree of publicity. Mr. Payne has not heretofore been sure that any considerable portion of Mr. Bristow's reports will be made public. Today he is of the opinion that whenever one feature of the inquiry is closed results will be at once given out. He is now promising full publicity.

Kerr is drifting along the Formosan coast with her cargo of coal still on fire, although she was abandoned a year ago near Hawaii. The Kerr sailed from Newcasile, N. S. W., in April, 1902, bound for San Francisco with coal. Capt. Gibbons and crew landed at Kauai and made their way to San Francisco via Honolulu. The captain reported he had been compelled to abandon the vessel by a fire which would completely destroy here. Claims were filed against insurance companies which were settled in full.

Ten months later the steamship Heathdene reported the derelict still smouldering and drifting near Formosa. The steamer Volute, arriving at Kobe late in April, said she had passed the Kerr fifteen miles off Double Peak, Formosa. The Volute's chief officer boarded the Kerr and brought away deveral mementoes. He reports the decks all failen in, five bearns gone, but portions of the salon intact. He descended by the companion-way, stepping into hot ashes up to his hips. He thinks eight hundred tons of coal are still intact.

Grand Roll of Colonists.

BAN FRANCISCO, May 20.—During the last thirteen weeks a total of 28.—762 prospective settlers have come into California from the eastward on the colonist rates offered by the Southern Pacific to encourage immigration from the valleys of the Ohio, the Missouri and the Mississippi. With four weeks and three days more of the season of low rates the prospects are that the grand aggregate of these colonists will reach 35,000 by June 15.

Low Freight to Orient. Low Freight to Orient.

SAN FRANCISCO, May 26.—When the big liner Siberia of the Pacific Mail Steamship Company sails from this port for the Orient on her next trip she will carry freight at a cheaper rate than ever before. The appearance of a new competing transoceanic line is the cause of this most recent move by the Pacific Mail people. It is evidently their purpose to begin discouraging the competing line before it gets fairly started.

SAN JOSE, May 20.—The fruit men of San José were surprised when notice reached the local office of Porter Bros. other things, they expect to determine if it is volcanic origin.

Dr. Cook will be accompanied by Robert Schainwald, the botanist and biologist, Robert Dunn, the geologist, and possibly a surgeon. All of them are experienced explorers. They expect to be gone four months.

Dr. Cook was surgeon of the Peary Arctic expedition of twelve years ago, and in 1897 he accompanied the Belgian Antarctic expedition. He is about forty years old. The party will go to Seattle, Wash., and thence to Cook's Inlet. Packhorses will be provided, and explorers will continue to their destination. Photographs will be taken of all points of interest along the route.

arm.
Formerly I was a great sufferer from insomnia. For this I have found the Generator a great blessing. I never go to bed without applying it for half an hour. A number of my friends have successfully used it for the same trouble. My sister, suffering from paralytic conditions obtained the most remarkable relief. After physicians had said nothing could be done for her, she tried the Generator and WAS CURED."

Col. Goode has purchased and given away a large number of Generators for the good they do and for the cures they perform.

Cable.] The Times St. Petersburg correspondent, in a dispatch dealing with the dismissal of Gov. Raaben of Kishineff says the conduct of the Governor in allowing, by his inaction, the Jewish riots to develop into a massacre, is all the more incomprehensible because he had assured the Jewa, who warned him and appealed for protection, that every precaution had been taken to suppress disorder. Yet the work of murder, outrage and devastation was allowed to proceed without hindrance, and the Jewa were told that nothing could be done for them.

The Kishineff massacre, continues the correspondent, has shown that the local authorities cannot always be trusted to protect the Jewa, yet in a recent circular, Interior Minister Plehve laid down that Jewish clubs of self-defense could not be tolerated. Many Russian papers have done everything in their power to excite hatred against the Jewa and even now are allowed to say that the massacre served the Jews right, and urge still further repressive measures against them. No corresponding freedom is allowed to defenders of the Jews.

The Pravo has been warned for an article mildly reprehensive of the antifemite attacks and the laxity of the administration where Jews are concerned, while the suthor of the article was censured personally by the Minister of Justice.

In justice to the Russian people, however, says the correspondent, it should be pointed out that there is no sympathy on their part with these riots. The whole Liberal press expresses horror thereat and many ciergy, including Father John of Kronstadt and Bishop Jitomar, have denounced them from the pulpit.

BAN FRANCISCO, May 20.—(Exclusive Dispatch.) Lucky hustlers from the land of crange blossoms and enchilladas won a spectacular game in a driving finish today. San Francisco made one error, and that cost the game. That is surely luck.

San Francisco fell a victim to four double plays, three of which resulted from drives right into the fielder's hands. That is good baseball, with a coplous sprinkling of luck. Los Angeles made three bungles, and none of them cost more than a temporary flutter. It was anybody's game, almost to the end, but in the last half San Francisco fell short by two bases.

CHICAGO, May 20.—(Exclusive Dispatch.) There were eight horses in Baldwin's string which arrived at Washington Park from California yesterday. Six of these were two-yearoids, Atlantico, Felipe Lugo, Alamansar, Potrero, Chico, Masatian and Zar. The only two in the older division are Americano and four-year-old Cruzados, who was cut down in the preparatory at Harlem last year. Crusados is looking fine, as is also Americano. As the case was with Cruzados last year, so with Americano this. The tip has been growing that Americano is here to pilfer the blue ribbon event, although race-goers last year failed to notice any liking for the distance in the son of Emperor of Norfolk. However, the report is abroad that Americano has changed his habits, and that distances are what he is thriving on these days. Nothing is known about Baldwin's two-year-olds, except that the majority are fine lookers. Two are by the Emperor of Norfolk. Atlantico is a half-brother to both Cruzados and Americano.

It is expected the stables at Washington Park will rapidly fill up from now on. A number of owners have WILL PICK THE WINNERS.

Mr./Cunningham says that while attention is being maintained in the north by Russian aggression, a matter of far greater importance to America, Britain and Japan is being overlooked in the south. That is the aggression of France in the southern provinces. He was of the opinion that France and Russia were acting in concert, the former in the north and the latter in the south. Although at present the rebellion in Kwangsi is practically brigandage on a large scale, the rebellion in South China, he says, is another factor. There is no doubt but that the reformers have organized the brigands, and a rebellion which will be had.

MEETINGSET FOR TODAY.

This afternoon at 2 o'clock delegates from the Southern California counties will meet in the office of the Los Angeles County Game and Fish Protective Association on the top floor of the Wilson Block to draft a uniform deer and dove law which will be submitted to the various boards of county Supervisors for enactment.

Henry T. Payne, president of the State Game and Fish Protective Association will call the meeting to order. He has been working on the matter over a week and says there will be a good representation if those come who promised to do so.

It is highly probable that several other phases of the game law will be brought up. The adoption of a uniform trout law would be a good subject for general action.

MAKING THE MALT.

Tis an interesting sight to enter a great maiting house and study the process of making this most essential element in the brewing of beer. To explain all the various details through which the barley must pass before it becomes mait would take a volume of several pages. But, briefly stating the simple facts, the barley is soaked in water for forty-eight hours, the light, imperfect grains which float on top being skimmed off. After it is thoroughly soaked the water is drained off and the barley spread out on great bare floors to germinate. The process of germination takes about six days. It is next put into great drying kiins and kept at an intense heat for many hours till all the moisture is evaporated, when it is once more spread out to thoroughly dry before it is put into sacks and shipped all over the world.

The object of malting is to turn the starch globules of the barley into saccharine, which is extracted from the malt in the process of brewing. Thus the malt extract furnishes the body and strength-giving portion of beer. The very finest and richest mait obtainable is used in Los Angeles beer—every sack full is carefully inspected, and if the least imperfection is detected it is cast aside as worthless. For the object is to increase the high standard of the beer, if possible, rather than to allow it to degenerate one lots.

In the near future the Company will erect its own malt house, which marks another epoch in the successful career of Los langeles beer. The many points of excellence in this pure and invigorating beverage can hardly be appreciated until it is tested. It contains no harmful ingredients, and its wholesomeness and delicious flavor appeal foreibly to everyone who uses it.

Les Angeles Beer is a solace for eld age — a comfert for youth — a necessity is every household.

SECRET PROCEEDINGS.

(BY THE ASSOCIATED PRESS-P.M.)

CHICAGO, May 20.—Bankruptey proceedings against the Porter Bros.'

Company, one of the largest fruit commission houses in the country, were begun secretly in the United States District Court yesterday, and it was not until today that it became known that receivers had taken charge of the company's affairs. John McLaren, former vice-president of the Union National Bank, and Henry L. Wilson, a lawyer, were directed by Judge Kohlshat to take charge of the assets of the corporation. This was done on application of several creditors, who allege that the concern was inspivent and that

its officers had made preferential payments.
Until the return of James S. Watson, president of the corporation, the receivers do not expect to find out much about the financial condition of the company, President Watson is expected to arrive at Chicago tomorrow. Attorneys Defrees, Brace and Ritter, who represent the receivers, said tonight that they could not estimate the liabilities or assets of the concern.
The concern was capitalized for 31,000,000 and had a high financial rating. The stores of the company in Chicago are at No. 97 South Water street and No. 46 River streets. It also owns large branches in New York, Boston, Minneapolis and at several places in California.
The announcement of the action in

apolis and at several places in California.

The announcement of the action in court against the Porter Bros. Company caused a commotion in South Water street. The petition in the local court was filed by Leonard B. Weed, Benjamin F. Smith and Thomas F. Beaver, whose claims aggregate \$5000. As grounds for asking that the concern be adjudged bankrupt they allege that it paid \$723 to D. E. Evans & Co. and \$650 to Mills Bros. & Co. on May 14, and that four days later the concern executed five promissory notes to Hathaway & Co., which the latter sold or discounted. Two of these notes for \$25000 each were given to the First National Bank of Chicago for collection. Two more of the same face value to the Corn Exchange National Bank.

The officers of the company are James Watson, president: John R. Adams, treasurer; F. E. Chapman, secretary, and Stephen G, Palmer, vice-president.

LONDON, May 20.—[By Atlantic Cable.] In a speech at Burnley last night, Lord Rosebery, referring to Mr. Chamberlain's speech at Birmingham, May 15, in which the Colonial Secretary made an appeal for trade reciprocity within the British empire, said that before the tariffs were changed the colonies ought to be represented in the government of the country, and he did not think this was so impracticable as it was sometimes considered. He did not regard free trade as a part of the "summons for restraint," but the question arose whether it would be wise without long and deep consideration to change the fiscal system under which Great Britain had achieved her commercial success.

Chamber of Commerce Appoints Committee to Raise Cash-Silver Bell Sold for Over a Million-San Diego Smelter

If Los Angeles is to get the American Mining Congress of 1904 business men and others interested in bringing the important convention to this city will have to back up their wishes with cash. Something like 50000 will have to be raised, and an effort will be made to obtain the necessary amount. Such was decided at a meeting of the directors of the Chamber of Commerce yesterday, when a committee some composed of J. Ross Clark. Eben Smith, Daniel Murphy, O. P. Posey, John Singleton, Walter Trask and Ecos Randelph, was appointed to take up the matter of providing funds. This committee has been authorised to canvass the situation and on its report will be determined the action to be taken by the Chamber relative to inviting the Congress to come West. Before an invitation can be extended \$4000 must be in sight, and from a private subscription circulated it is learned that already \$3500 has been guaranteed.

"It would be a great thing for the city and mining interests of this section if we were able to secure the prise," said George W. Parsons, chairman of the Chamber of Commerce Mining Committee. This is one of the country and the holding of the congress in this city could not fail to draw attention to the mineral resources of the Southwest, of which this city is the holding of a convention of Southwest mining men during the meeting of the congress.

It now seems almost certain that the proposed smelter will be built at San Diego by the National Refining and Smelting Company. According to a contract entered into this week with the Chamber of Commerce of that place, work must be started on the plant before the end of the present month and completed before December 1. The plant is to have a capacity of 100 tons a day, and about \$45,000 is to be expended. It will be so constructed that the capacity can be doubled if the trade warrants.

Information by Mail

A specialist who pretends to cure all diseases of mem by sending treatment through the mail is NOT a specialist but a quack. A man who says that no case can be treated successfully by correspondence is not a physician and cannot show a diploma in his own name. He simply admits that he cannot recognize a disease by its regular symptoms. A Genuine specialist in men's diseases can send a man a properly prepared question list to be answered by the patient and on receipt of same can give the patient valuable information concerning his case by mail, and can nearly always tell him whether or not it will be necessary to spend his time and money to come to headquarters for the necessary attention. We can give you this information if you will send for our book, colored plates and question blank. Sent free of charge.

RIVERSIDE.

BRILLIANT BANQUET. RIVERSIDE, May 20.—There were over three hundred guests last night at the annual banquet of the Woman's and the Present Day Club, at Hotel Reynolds. It was a brilliant success in every way, and the women of the Baptist Church, who were in charge of the affair, were showered with con-

of the affair, were showered with congratulations.

The decorations in the dining-room, consisting largely of sweet peas and maidenhair ferns, were in fine taste, and the banquet was sumptuous. At the conclusion of the dinner, Rev. Dr. Taylor, president of the Present Day Club, introduced Mrs. Meharg, the retiring president of the Woman's Club, who told briefly of what the organization had accomplished during the past year, and of what it expects to accomplish during the coming twelve months. Mrs. Grout, the present president of the Woman's Club, spoke most interestingly, making an earnest, effective and wonderfully well-worded plea for the preservation of the flora of California, which adds such a charm and interest to our landscape. On the subject of, "The Interests of Riverside," C. E. Rumsey read a most intelligent, instructive and practical paper, advocating the importance of municipal improvements, laying special stress on the matter of portance of municipal improvements. laying special stress on the matter of

The City Attorney was instructed to close the deal as expeditiously as possible, in order to save further paying of rental, which approximates \$15 a day. The City Engineer was instructed to proceed immediately with the preparation of plans and specifications for the new water system, so that bids may be called for, the contract awarded and work begun, all of which will lead to the early acquisition of an adequate

FIFTY YEARS WEDDED.

Mr. and Mrs. George Cooley, whose home place is near Coiton, yesterday celebrated in a quiet way their golden wedding anniversary. May 19, 1863, Mr. Cooley was married to Miss Ellen Tolputt on board the ship Camillus, while sailing in the West India group. They landed in New Orleans several weeks later, and arrived in San Bernardino May 11, 1867, camping on the hanks of the Banta Ana River. They have since resided in this section. Mr. and Mrs. Cooley are the parents of sixteen children thirteen of whom are living.

TROLLEY TELEPHONES. FIFTY YEARS WEDDED.

TROLLEY TELEPHONES. The Rediands trolley cars are to be equipped with telephones, so that passengers can telephone, if they wish, while en route between San Bernardino and Rediands. The new switch-board has arrived and will be installed at once at the power station. The line will have a capacity for twenty phones. Ten will be installed on the cars of the line, and there will be five stations between the two cities and one at each end of the line. It will be possible to communicate between stations or cars, or talk from the cars to any of the stations while en route.

HOBO THIEVES.

Two hobos, giving the names of Kohen and Williams, were arrested yenterday afternoon for stealing, several boits of clothing material from Warren Weaver's talioring establishment on E street. They entered the place, presumably to have a glove repaired. While this was being done in the rear of the establishment, they succeeded in getting away with the cloth, which they proceeded to cut up into suit lengths and peddle about the city.

STORE BURNED.

HUENEME, May 20.—The grocery and general store belonging to Mrs. C. Grassi was destroyed by fire Sunday evening. The cause is unknown. A vigorous effort was made by the men of the community to extinguish the fiames, while others carried out quantities of dry goods from the store. The work was rendered somewhat dangerous by the continuous explosion of gunpowder. It was only by hard work that neighboring residences were saved. Building and contents were insured.

PHILADELPHIA, May 20.—A dispatch received at the Maritime Exchange announces that the British bark Skoda has arrived at Hiack River, Jamaica, and reports that on April 20, 250 miles off Cape Charles, she passed through water covered for miles with oil. This probably explains the loss of the tanker, S. V. Luckenbach, which left Sabine Pass, Tex... March 19, for Marcus Hook, Pa., loaded with oil. Since the date of saling the Luckenbach has not been heard from, and has been given up for lost. She carried a crew of thirty-two men.

Patrolman Allen secured admission to the place by representing himself to be a street car employé, and as he was in the act of marking a lottery ticket the doors were forced open by Capt. Abble and Patrolmen Craig and Parker The entire lottery outfit was seized and the two Chinese were locked up. They were later released on 1100 ball each.

Inspector Hall's Jaunt.

Before the President's party reached Los Angeles in the early part of the month Postoffice Inspector Hall of this city left for the north to act as the President's advance agent during his tour of the Pacific States. He was chosen to accompany Secret Service Agent Sutton, who preceded the President here, to arrange for police protection and other safety details in places on the Presidential Itinerary, and will continue his new duties until the Chief Executive turns eastward again.

Like Mother Makes.

A novel scene was enacted in the Twenty-eighth street school yesterday afternoon, when the girls of the domestic science class, principally of the seventh and eighth grades, spread a dinner of their own making before over a hundred mothers who came to prove their daughters pudding by the eating. The meal, which was declared most creditable to the amateur cooks, was served under the direction of Miss Case, the Seventh-grade teacher, and the long table, spread in the upper hall of the school building, was prettily decorated. The event was planned as a practical test of the utility of the domestic science department, and resulted most encouragingly for the little cookery pupils. Super-intendent Foshay addressed the gathering.

Members of the Humane Society and the general public are evincing more active interest in the work. Yesterday Dr. F. A. Seymour was elected president of the society; Dr. W. A. Lamb, vice-president; Mrs. E. M. Millard, secretary; German-American Bank, treasurer. Hartley Shaw was elected counsellor. W. A. Pisher was elected deputy humane officer, without pay. An Executive Committee, consisting of Drs. Seymour and Lamb and Parley M. Johnson was elected to transact urgent and immediate business. The society has money in the treasury, and will prosecute its good work with vigor. It is to have new offices soon, and to distribute more literature and widen its sphere of usefulness. The report of Humane Officer Oliver shows that much was accomplished in the year. Fines paid as a result of prosecutions by the society amounted to \$395.

Great National Assembly Begins Work in Los Angeles.

Fifteen Trainloads Arrived Yesterday-Five Candidates for Moderator Here-Dr. Robert F. Coyle of Denver Probable Winner Today-Enormous Crowds at Missionary Meetings-Moderator Van Dyke Arrives.

C HIEF Presbyterian of them all, any expected person would be. MixModerator Van Dyke of Princeton, came in last midnight, just a day late, and practically closed the great pilgrimage to the one hundred and fitteenth General Assembly... Moderator Van Dyke was to have made the opening address at the first of the missionary meetings yesterday, and a large audience was disappointed. At midnight nearly all the Presbyterians were here, and there will be a full representation at the opening session this morning. At the opening session this morning. At the opening of the missionary mass meeting last even the missionary mass meeting the missionary mass and the railroad forces and trainsfer companies were wholly unable to handle the bage permuptly. It may be a couple of days before the commissioners and their ladies will be able to secure their checked baggage.

It may be a couple of days before the commissioners and their ladies will be able to secure their checked baggage.

The headquarters at the Immanuel Church were all activity from 7 o'clock in the morning until an hour before and other wants are the morning until an hour before and the morning until an hour before were and there were a-plenty, and the railroad forces and trains were wholly unable to handle the bage permuptly. It may be a couple of days

ing they came in a steady stream, and the flood of delayed traffic caused some congretion at depots and hotels. Local arrangements were almost perfect and as fast as the strangers poured in they were greeted by members of the reception and entertainment committees, and directed to the headquarters or places of entertainment.

Seven special trains, in eleven heavy sections, arrived over the Southern Pacific between 9 a.m. and 6:10 p.m. Four special trains came in over the Santa Fe between 9:30 and 11:40 p.m. These were in addition to the many regular overland trains bearing a quota of assembly passengers. It was a record-breaking influx for such a brief space of time.

SANG FOR JOY.

The first installment of the invading atmy was a tremendous special train on the Southern Pacific, arriving at about 9 a.m., a couple of hours later than first scheduled. The local receivers had appeared as early as 7 o'clock, and their forces had been continually augmented until the welcoming body was very large. They focked through the gates before the big train came to a standstill to extend their welcomes and profier information or guidance.

It was a brilliant, happy scene.

south-bound, and late last night they had the reunion from their first serious separation. Three women were also left at Sacramento. THE BIG EVENT. THE BIG EVENT.

The assembly proper will open at it o'clock this morning, in the Immanuel Church, with the annual sermion by Rev. Dr. Henry Van Dyke, the retiring moderator.

The great political event of the entire season will occur at 3 o'clock this afternoon, when the election of the new moderator will be held. Five candidates are in the field for the high homor, as follows: Rev. Dr. Robert F. Coyle of Denver, Rev. Dr. William H. Roberts of Philadelphia (present stated clerk:) Rev. C. W. Mateer, missionary of North China; Rev. Dr. S. B. McCormick of Cedar Rapids, lowa; Rev. Dr. David R. Kerr of Nebraska.

Dr. Roberts's friends are very confident, but straw votes taken indicate that Dr. Coyle will be the winner.

"We are only a month old, so I beg to be spared," she said.

"That was a snapshot from the firing line," said the chairman, and there was more laughter.

The following committee was appointed to formulate a resolution on the work of the missionary conference, to be presented to the General Assembly: Rev. J. F. Orton, Fort Wayne; E. Higginson, Wichita; Mrs. G. D. Brown, San Francisco.

Of course nobody stood up, and then he asked for the representatives of the women's missionary societies to stand up. Practically the whole audience arose, accompanying the act with a great laugh.

Francis Murphy was called from the audience by the chairman, and going to the platform paid his respects to the missionary workers, and acknowledged the courtery on the part of the chair. Mrs. P. D. Brown-of San Francisco, president of the Occidental Board, uttered some strong words in expressing the hope that the time had come when no more talk would be heard of "woman's work." but that every man, woman and child in the church would be workers together in the Lord's vineyard. It sounded like a joke at the expense of the men, but Mrs. Brown was thoroughly in earnest. She made an earnest appeal for consecrated and systematic work for missions. She told a story of six women of Los Angeles, without mentioning any names, who at the time of the organization of immanuel Church, though they had nothing, and were in the midst of a great degree property in the many where else so far as I know."

Miss Jennie Partridge of San Francisco, field secretary of the Occidental Board., made an eloquent talk concerding the young people's work, which is in her hands. She gave many practical pointers on the work.

"We may need more money, more information and more interest, but I tell you, we need more of the love of Christ."

Rev. Dr. Chalfont, superintendent of the Los Angeles Chinese Mission, made the closing prayer of the conference.

DR. MAREHALL AND HIS WORK.

The work of Dr. Marshall, field secretary of the board of foreign missions, has for its limits the borders of the country. During the year he has delivered 282 addresses in many different States; he has traveled 27.815 miles, without missing a single appointment by ill health, accident or delay of trains. Rev. Dr. W. R. Henderson said of the field secretary and his work:

"In response to the overtures of forty-eight Fresbyterians asking for the appointment of a field secretary, the General Assembly of 1886 directed the board of foreign missions to find a suitable man at the earliest moment. The man was found in the person of the Rev. Dr. Thomas Marshall. Aside from the qualifies of mind and heart fitting him for this department of the church's activity, Dr. Marshall was specially qualified for it by reason of his thorough familiarity with our work in heathen lands. At the time of his appointment, he had but recently returned-from his tour around the world, during which, at his own expense, he visited mission stations in different countries, acquainted himself with the fields in which our missionaries were laboring. He thus prepared for the work to which the church called him.

one of the hardest things about the following of any system of diet is that it renders the person who diets more or less singular. And that is something that no one relishes. One does not find it pieasant to have to call attention even in an unobtrusive manner to the fact that one is abstaining from this or that, no matter what may be the cause. Yet more or less this matter of diet is being taken as a matter of course. It is nothing unusual to see a man or woman decline a dish with the simple explanation. "I am on a diet just at present," and as a rule those who hear the words are possessed of sufficient good manners to refrain from asking further questions.

A Lot Bought at This Auction Saturday Will Sell at a Profit on Monday

This Sale Is Absolute, All the Remaining Property in Raymond Park Must Be Sold.

Exclusive Plots at Your Own Price

Raymond Park is the most beautiful place for a suburban residence in all Southern California. It has all the advantages of the most modern improvements and is only 22 minutes distant from the business center of Les Angeles by the broad-gauge Pasadena "Short Line."

There will be two distinct sales at this auction. The first will be at 10 o'clock in the morning, when all the remaining acreage in the Park will be put up under the hammer in parcels of one acre and more. Conveyances for the accommodation of prospective purchasers will be in front of our office in the Park at 9:45 o'clock in the morning of the day of sale-rext Saturday, May 23 -and they will move from plot to plot as the acreage sale proceeds.

The second sale will be at 1:30 o'clock in the afternoon in the big tent in the park, when 90 villa plots will be sold without reserve to the highest bidders.

No side bidding will be tolerated at these sales. The property will be sold without reserve to the highest bidders and we will expect those bidding to complete their purchase in good faith.
Every one shall have fair
treatment and we expect to be treated fairly.

Catalogues prepared es-pecially for this sale can now be had at our offices in Los Angeles and in the Park. We would advise prospective purchasers to go to the Park before the sale and look over the property. Every facility for examination will be afforded by our office in the Park.

Free transportation to the Park, either before or on the day of the sale, on application at our city office. We will be glad to expedite the business of prospective purchasers in every way.

The picture is of the residence of Mr. Quinn, in Raymond Park, South Pasadena. It is one of many beautiful homes to be found in this most exclusive and desirable suburb.

On the north border of Raymond Park lies Raymond Hill, famed for its flower garden—one of the most extensive and most beautiful in all the world. It is a sight worth seeing.

No ordinary rain will cause a post-ponement of this sale. It is imperative. In case of a heavy rain it will be postponed till Monday. Watch the newspapers for announcements.

Case of Smallpox.

A case of confluent smallpox was taken by the health authorities from the headquarters of the Associated Charities in the Courthouse yesterday. The unfortunate was Leonard Gordon, who came here from San Francisco ten days ago. Gordon has been living in a cheap rooming-house on East First street. He is at a loss to know how he caught the disease. This case is the first to occur for some time.

ATTHE COURT HOUSE COCIETY LADY ANSWERS THE MAN TAILOR.

MRS. J. ROSS CLARE VENTS SAR-CASM ON BENIOFF.

She Files a Burning Answer to Benioff's Suit and Says That He Always Charges Three Times the Price of Ready-made Garments.

Mrs. J. Ross Clark "didn't de a thing" yesterday to Benioff, the man tailor who sued her for 380 for a suit which she claims did not fit.

After the answer that she filed yesterday, Benioff is a lucky man if he is able to sit up this morning and take a little nourishment.

This is the way her answer begins:

". Defendants (referring to herself and husband) allege that the blaintiff (Benioff) in this action advertises and does business as a 'Ladies' Tailor. He claims to furnish garments of superior quality, fit and finish and as a proof of this he exhibits his prices. "His goods are made to order to fit the particular person ordering them sand his customers pay him for this reason some three times the cost of such garments sold 'ready made."

She goes on to tell in a crushing manner that her suit utterly falled to fit.

Her attorney, Frank Burnett, Esq. thus gayly winds up the answer:

"Wherefore, defendants pray that said action be dismissed and "judgment rendered against the plaintiff for costs, the only 'fitting' conclusion' to this suit brought for a suit that did not 'fit' and hoping that this herborable court in passing judgment will give the plaintiff 'fits' for bringing these suits into court, defendants pray to be hence dismissed, etc."

depositions of persons connected with New York safe deposit companies, where Hill or Charles had safe deposit boxes.

Walter G. Rogers, one of the officers of the Metropolitan Safe Deposit Company of New York, testified that Salem Charles was the holder of a box there. Charles was the holder of a box there. Charles's description as taken from the bank's books, tallies with the description of Charles Hill. who died in this city.

The books of the bank also show that the private pass word used by old Charles was "Melas."

This is regarded as one of the strongest pieces of evidence yet introduced to prove that Charles and Hill were one and the same person.

When old Hill had a safe deposit box in the Farmers' and Merchants! Bank here, he would not give his mother's maiden name for a password in accordance with the usual custom. He gave instead "Melas," which he said was Salem spelled backward, the word he niways used.

The two occasions were years apart. Mr. Rogers' also testified as to an entry in a memorandum of the bank wherein it appeared that Salem Charles and Mary Charles, the niece, had withdrawn their safe deposit box. The memerandum had the note. "leaves for California Tuesday."

Several other employes of this and other companies gave similar testimony introduced was in regard to dates. It was shown that two days after Mrs. Driggs swears that Hill made a will in her presence, leaving all his property to her daughter, he was in New York leaving checks at this bank. Checks at that bank account for the old man's movements during much of the time that year. One of the objects of that testimony is to show that a man who was doing banking in an eminently respectable manner and seen frequently in his comings and goings in New York was not likely to be in the head and front of a counterfeiter's gang in Ohio the same week.

quiet title to sixty-five acres of land in Los Feliz Rancho, in which the plaintiffs are J. M. and Henrietta Le Brun and the defendants, Thomas Mc-Whorter, Hugh, Andrew, William and Paul Glassell and Mrs. Louise Shorb.

It is a legal tangle over one of the old Verdugo grants under Hansen's survey of 1866.

The defendants admit that the Le Bruns own part of the old grant, but dispute the correctness of the survey, claiming that their land really lies in the San Rainel ranch.

The last of the Verdugos to whom the enormous grant was made is now said to be living in poverty on the Verdugo place.

THE INFERIOR COURTS, HRILLING VOICE AND TEARS OF FRENCH CHEF.

BONIFACIO ALANZO MADE IMPAS-SIONED PLEA.

On Trial for Grand Larceny the Accused Broke Down, but Was Still Elequent-Forty Bicyclists Without Bells Fined.

Bonifacio Alanzo's tears and deep bass voice that thrilled through the Police Court yesterday afternoon did not avail him for defense. He a Frenchman, a chef. and accused of grand larceny. Lillie Van Kirk, a demi mondaine, says that Alanzo stole \$55 in silver money and jeweiry valued at \$46 from her room on Ducommun street two weeks ago.

While she testified, Alanzo sat in the dock with his head down and made faces of horrible agony. He dug his finger nails into the paims of his hands, and every once in a while he groaned. The Van Kirk woman went on gilbly,

Alanzo was vehement in asserting his innocence. "I swear over se graves of my mother, my sister that I am innocent. I bin in navy: I bin on se Frons mano'-war. I bin all over se world: I bin saved from wrecks a hu-undret times: I am ?? years old, but I never steal; no, not in all my life!"

The judge let Alanzo talk for half an hour. In the midst of an impassioned history of a storny life, he turned on the Van Kirk woman with his fists clenched and cred, with the tears streeming down his face, "Oh, you weeked, lying woman; you have brought me here: Oh, you—you—."

After it was all over Judge Chambers said that the evidence made it appear that Alanzo was guilty and he was held to answer in the Superior Court. Ball was fixed at \$1000.

"Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinikham's Vegetable Compound faithfully according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinikham's Vegetable Compound, and they have never had reason to be sorry. been very irregular. Few of the seed beds have entirely escaped, but some of them have been swept almost clear of the tender plants, while others, apparently no better protected, have suffered little injury.

Observation has shown that the worms work from one end of a seed bed, destroying all or nearly all the plants as they work their way along the length of the bed. The worms are busy only at night, and when the morning comes they burrow into the soll. The pleasantest, most convenient and the only scientific method for the treatment and cure of catarrh is Hyomei. Simply put twenty drops of Hyomei in the inhaler that comes with every package, and then breathe it for a few minutes four times a day.

It seems remarkable that so simple a way of treating catarrh will effect a cure, but the most important discoveries of science have always been the simplest. By breathing Hyomei in this way every particle of air that enters the air passages of the throat and head and goes into the lungs, is charged with a healing balsam that kills the germs and bacilli of catarrh and scothes and allays all irritation.

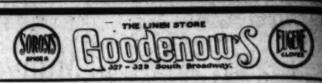

The first day's use of Hyomei will show a decided improvement, and in a short time there will on no furthetrouble from catarrh. Its action is rapid and lasting.

RUNNELS TRIES SUICIDE.

Wrists.

C. A. Runnels, a carpenter, but more recently engaged in a small way as a real estate agenf, was arrested yesterday on a charge of passing forged checks. Soon after he was placed in a cell in the City Jail he broke a small bottle which he found there, and with the broken glass attempted to commit suicide by severing the Blood vessels in his wrist. His condition was discovered before he lost any great amount of blood.

Runnels has been in trouble of a similar nature before. This time the officers say they have three certain cases of felony against him. He is alleged to have passed three checks for 115 each on as many merchanta, his method being to purchase a small bill of goods and then tender a check in payment, receiving the difference in cash.

His subsequent attempt to end his life shows how deeply he feels the disgrace. He has a family. The wounds which he inflicted upon himself are not of a serious nature, and he will be able to be taken to court today. He was placed in a cell with two other prisopers last night, one of whom watched him constantly.

getting into The Times if it wast to
Police Station proportions kept both
factions within bounds and nothing
more sangulnary than beer flowed
during the evening's merriment.

There were two factions represented;
one the supporters of T. D. (Pipe) Fennessy the "red" president of the
gang; the other the supporters of
one McDonald another printer who
aspired for the office of secretary.
The Fennessy contingent had their
hammers out for McDonald, and at
last reports had succeeded in raining
him up tight; their motto is Fennessy
as long as the public will stand for
him. Late last night they had succeeded in ringing him in again for
another term of—office.

The election was in progress all the
afternoon, the printorial artists doing
their balloting between "takes." For
that reason not enough of them could
get together to produce the orthodox
kind of "shindy," but from all accounts the spirit was not lacking.

The rabid administration of Fennessy has stirred up a great deal of
resentment amongst the conservative
element of the Typographical Union
and some of them are outspoken in
stating that though they did not "get"
him this time it will be "bells and curtain" for Fennessy next election. At
that time the conservatives expect to
put in a man after their own hearts,
though they are not saying who be will
be.

Pointers for Thrifty Housewives

Practical Demonstration of Domestic Economy in Household Expenses;

and an Incontrovertible Argument that Hamburger's is the Store that Saves Dimes and Dollars to the Los Angeles Public We point with pride to our ability to select sixty-four distinct lines of merchandise—and price each below regular, as special selling features of one days business at a store. It is amusing to see small imitators trying to pattern after our methods, always waiting for Hamourger's to initiate something good, then go ahead and copy—but as ing as good merchandise and never daring to meet our prices. But "a monkey does what a monkey sees," so our recent early morning sales have been copied as usual; with the

that the public once more judges our modern merchandising methods with the "peanut vender" tactics. In this great list of bargains offered our public today are scores of articles in daily household uses and every wage earner who must have a care for saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their savings for one day's trading, for a dollar-to-tay has nearly the ordinary purchasing gains of their dollars in their pocket as their savings for one day's trading, for a dollar-to-tay has nearly the ordinary purchasing gains of their dollars in their pocket as their savings are scores of articles in daily household uses and every wage earner who must have a care for saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their pocket as their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their saving money and make his or her earnings meet all the wants of sell or part of their dollars in their savings meet all the wants of sell or part of their dollars in the part of their dollars in the part of their dollars in the part
